Transforming the Way
Schools and Childcare
Centres Work and
Communicate
with Kinderpedia

What would you do if you had one extra hour every day?

Some of the Most Common Challenges of Schools and Childcare Centres Worldwide

Overwhelming Paperwork

Teachers' time consumed by administrative tasks instead of teaching - up to 60 min/day.

Lack of specialised solution, privacy, and confidentiality for sensitive data.

Outdated Communication System

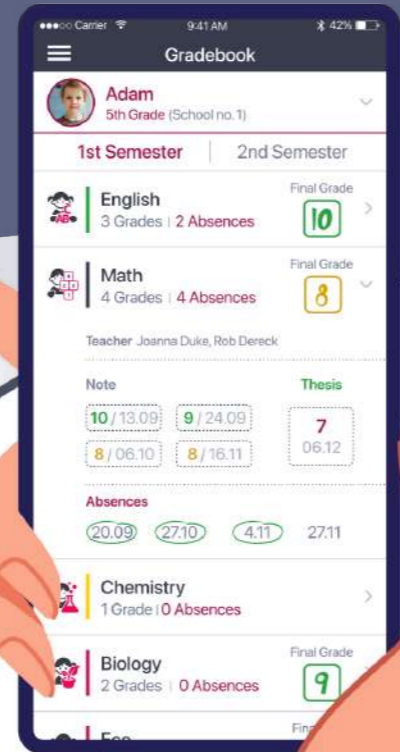

Parent Communication is irregular or incomplete. Daily reporting is typically to just one parent. An entire day is summarised in a 5 min conversation.

Internal Communication is inefficient, can make centers appear unprofessional, and leads to suboptimal planning.

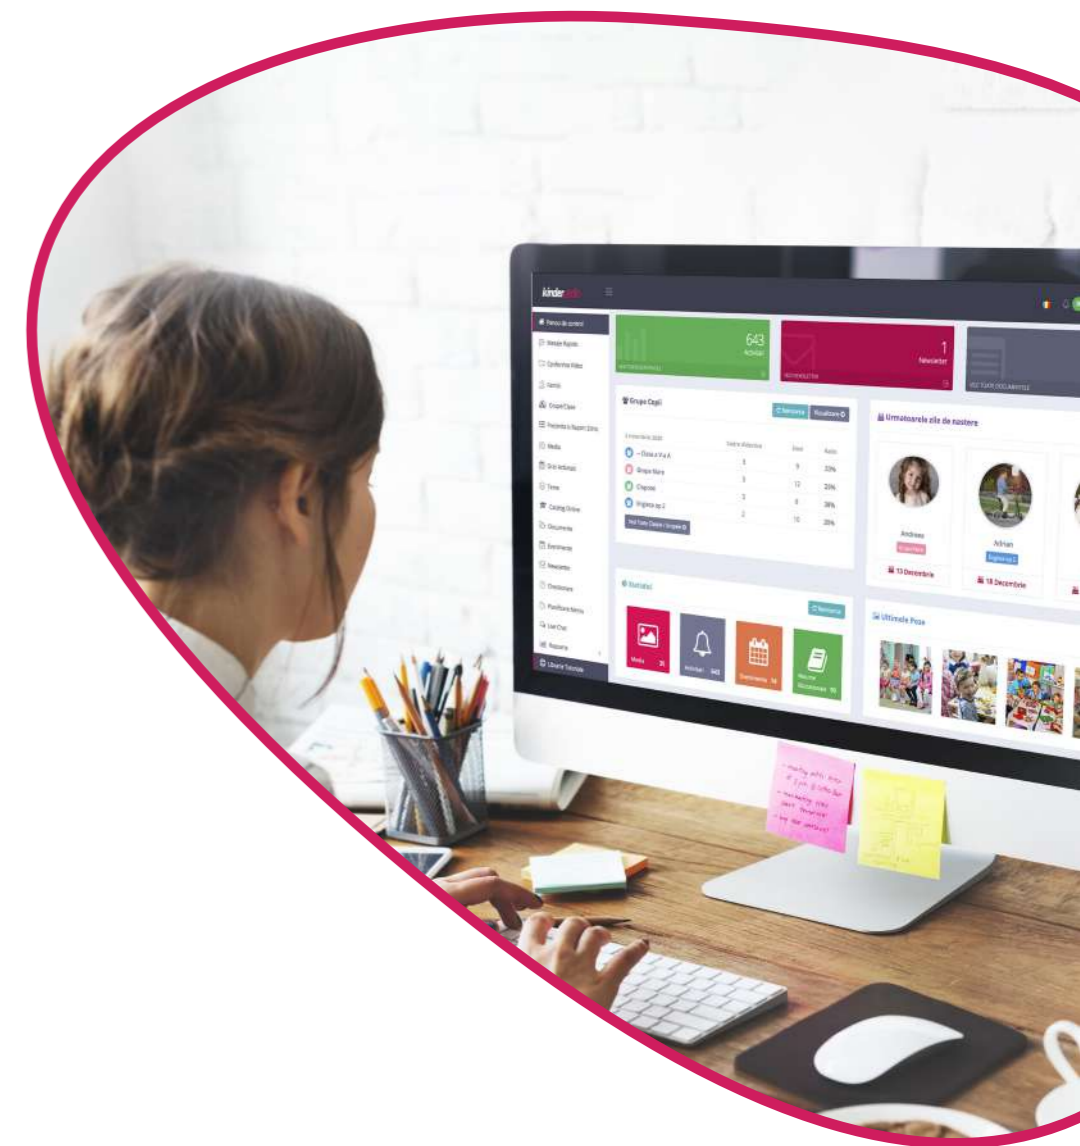

The Solution

kinderpedia

The communication and management platform specifically designed for education institutions, which **saves staff 6 to 9 hours per week**

www.kinderpedia.co

Building Trust in the School Community

Teachers Have the Entire Classroom at Their Fingertips

The app reduces 6 to 9 hours a week of teachers' administrative time, it empowers them and makes their work visible.

Kinderpedia brings all the classroom management functions in the palm of teachers' hands. On the web and in the mobile app, they get quick access to timetable, electronic gradebook, homework, videoconferences, educational resource library, messaging, events calendar.

Students Take Responsibility for Their Own Education

Students take control of their educational objectives, tasks and deadlines. The simple and intuitive interface helps them become autonomous and responsible, but also motivated and engaged.

www.kinderpedia.co

Families Become Partners in Children's Education

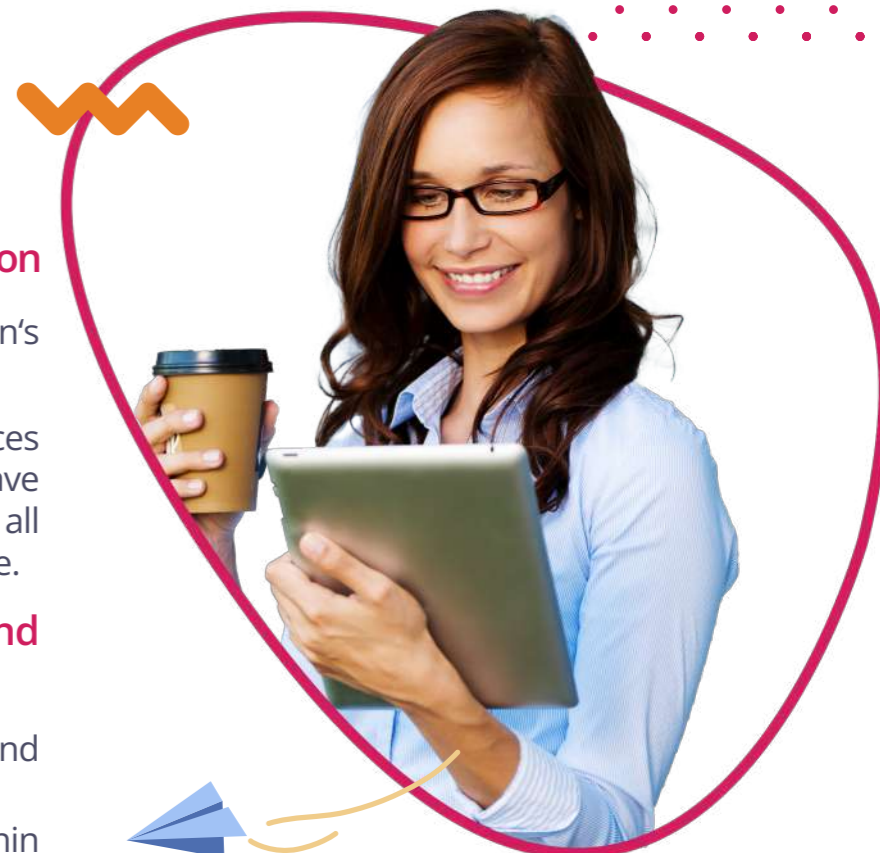

Kinderpedia keeps parents connected to children's schoolwork and progress.

The app facilitates real-time communication, it reduces parental anxiety and enables partnership. Families have access to information about classroom activity at all times. They can continue the learning process at home.

Schools Turn into Benchmarks of Value and Trust

Kinderpedia integrates all the planning, monitoring, and reporting needs of a modern principal in one place.

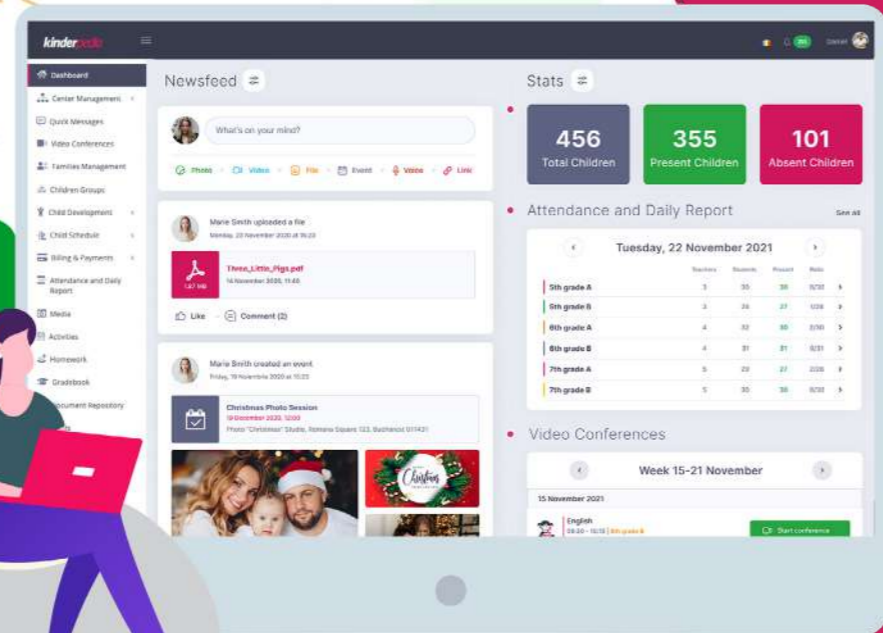

The platform enhances motivation and loyalty within the school team. It does so by eliminating redundant processes and bureaucracy, but, above all, by making shared goals and values transparent to the entire school community.

kinderpedia

The Benefits

Staff Save **6 to 9 hours** per Week*

* According to an international study conducted by the Berlin University of Applied Sciences, 2014

Get the Full Benefits of Kinderpedia in Less than **90 days** after Implementation

Save Time

Reduce your team's administrative time by 6-9 hours/ week, by moving daily activities in cloud, and enjoying the perks of digitalisation.

Get More Money in the Bank

Improve your cash flow significantly by issuing invoices automatically, sending in-app reminders, and receiving mobile payments from parents.

Simplify Management

Using Kinderpedia solves all your planning and reporting needs with one single tool. It is like having one extra team member who is smart, effective, and prompt.

Grow Employee Satisfaction & Retention

Kinderpedia empowers teachers and makes their efforts visible to families. They feel motivated, show initiative, and work more efficiently.

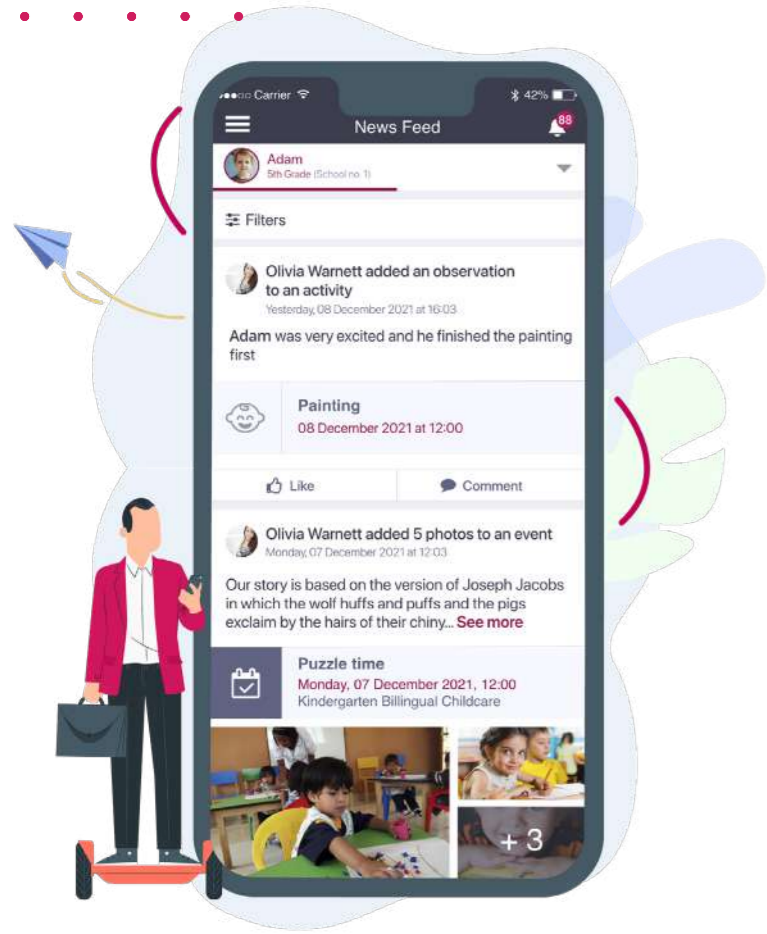

Engage with Families

Communicate with parents transparently, in real time, through a secure and easy to use platform & app. Nurture positive relationships within your school's community.

Boost Your School's Reputation

By building trust within your school's community, you reduce the cost of attracting new clients and make parents your no 1. partners and promoters.

Bring Your School Community Together

Trust between teachers and families lays a strong foundation for education.

Kinderpedia connects students, teachers, and parents under the same digital umbrella. Families become valuable partners in children's education.

Parents and Teachers Love the Interaction

The most value we get is from the appreciation and goodwill of parents and better time management of the staff.

The parents and staff love the interaction, as it provides a superior communication platform, while freeing up time to do other value adding work."

Indrin Pillay
Kita Lifestyle Educare
Baar, Switzerland

www.kinderpedia.co

Connect with Your Class Anytime, Anywhere

Manage your classroom, minimize learning loss, and keep everyone in the loop.

Kinderpedia is designed for busy teachers.

They can create their classes' schedule once per semester and set the recurrence. From their mobile app, they take attendance, grade students, schedule assignments, and even correct them on their smartphones. When necessary, any class turns into a videoconference.

The reports provide teachers with a meaningful overview that helps them achieve their teaching goals.

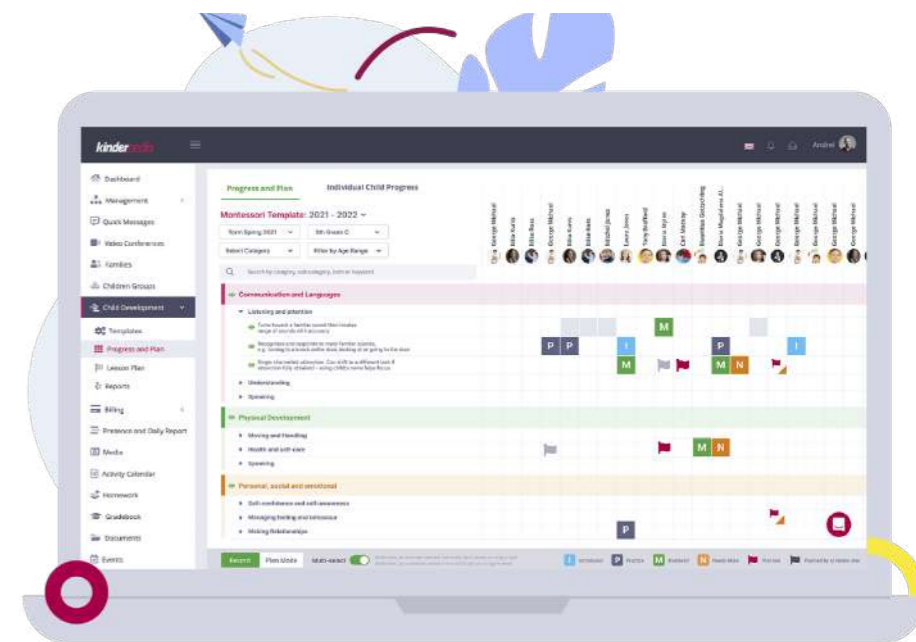

Keep Track of Children's Progress Every Day

Asses and monitor the growth of every child in real-time.

The child development module is a digital and versatile evaluation tool. It allows teachers to register observations about children's progress on the fly, assess them according to their own curriculum, and elaborate individual learning plans for each student.

Progress reports can also be shared with parents, enhancing family participation in education, and maximising the potential of every student.

Simplify School Management

Plan effectively, run reports quickly, and reduce paperwork.

Kinderpedia brings a strong digital toolkit to every modern school.

The school management solution diminishes the struggles associated with redundant administrative work. Most of what was previously captured on paper by teachers and administrators is now directly registered into the platform via an intuitive and easy-to-use interface.

Transparent communication and shared goals foster teachers' loyalty and give a sense of purpose to the entire school community.

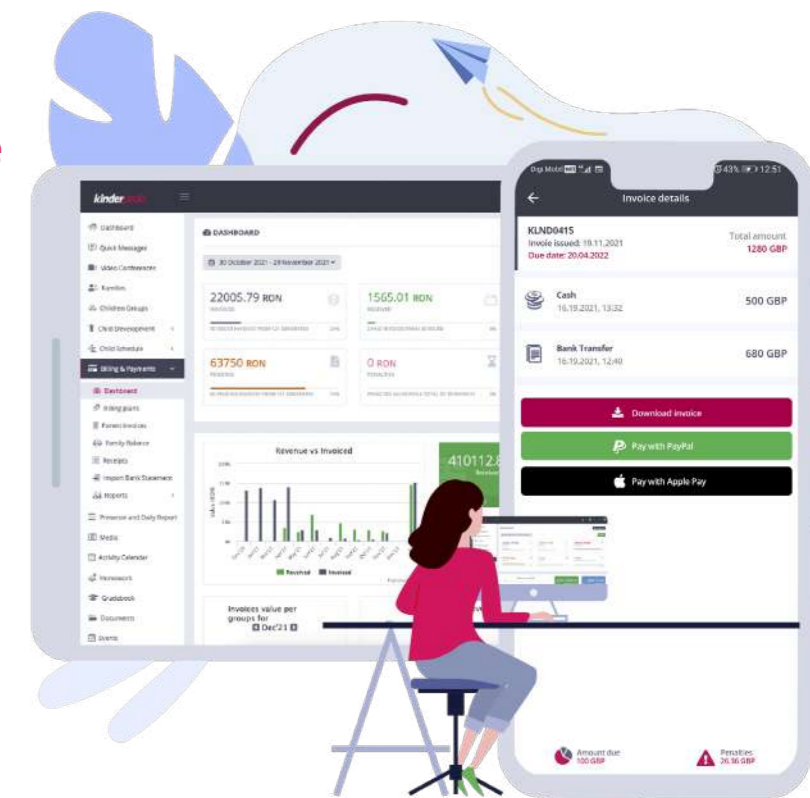

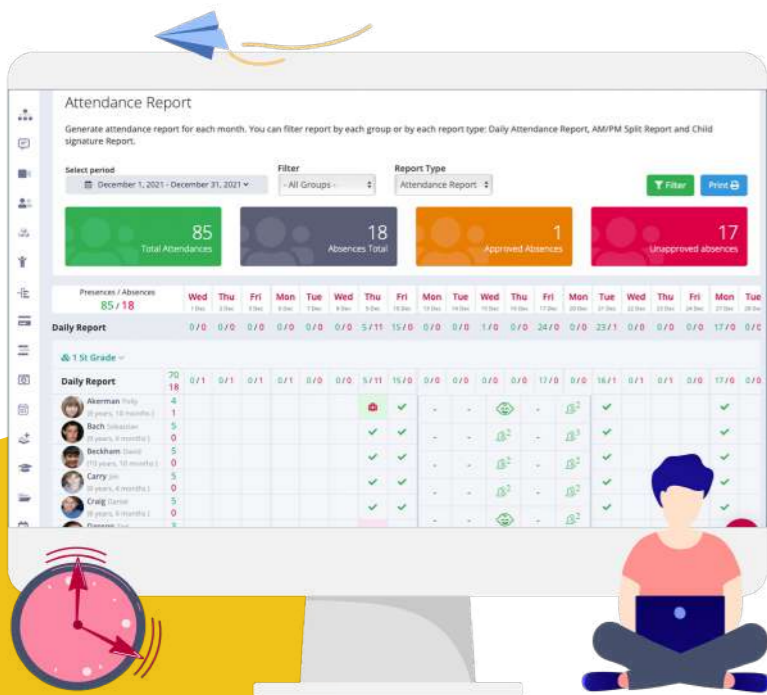

Optimise Your School's Financial Operations

Issue invoices automatically and streamline the payment process.

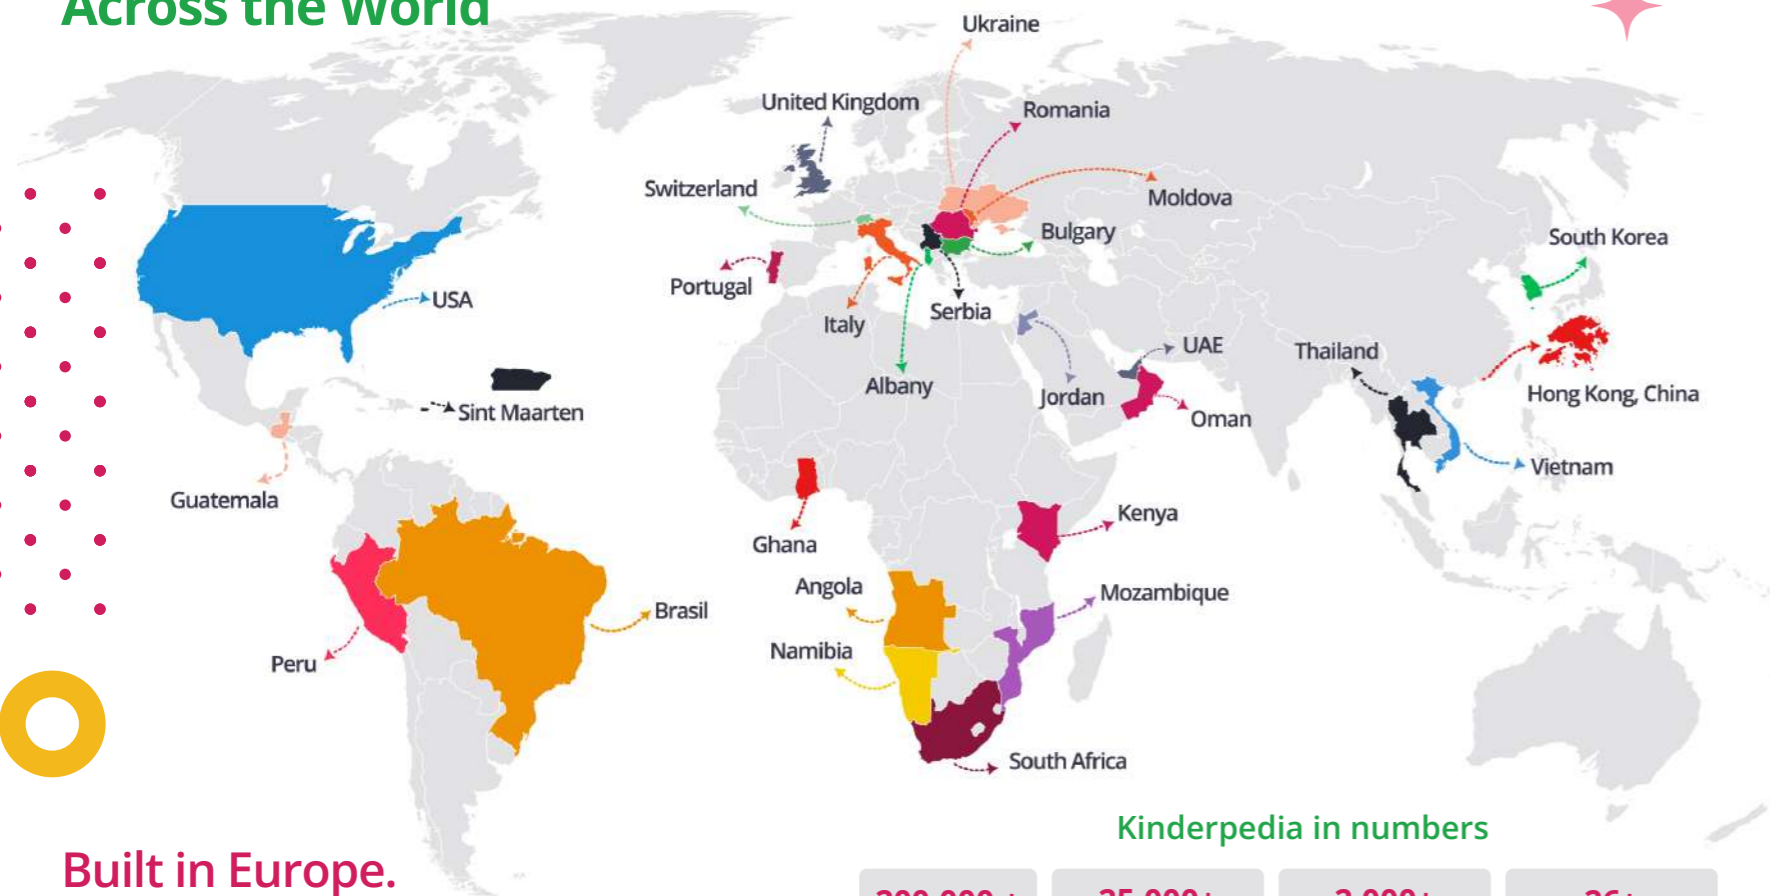

School managers create billing plans, send invoices automatically, track payments and deposits, analyse family balance, collect penalties, and generate custom reports.

Parents receive the invoices in their mobile app and they pay them electronically. Kinderpedia is integrated with Stripe, Braintree, and other payment solutions.

The platform can also keep track of cash payments and recognise transactions from bank statements. This shortens payment cycles and gives managers a constant overview of the cash flow situation.

Global Partnership for Education

The Best of Canadian Education for a Global Future

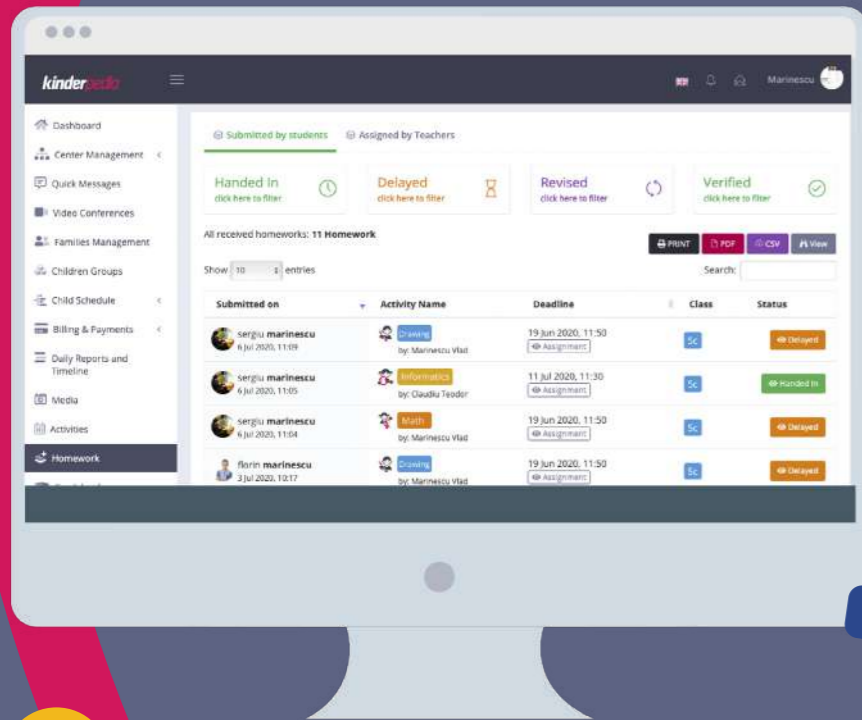

Maple Bear Global Schools, the largest global network of Canadian educational franchises, joined hands with Kinderpedia in a partnership that offers all Maple Bear schools and kindergartens across the world the complete communication and management solution for education.

This makes Kinderpedia the unique operating system for Maple Bear and provides an innovative digital tool capable of supporting both online and classroom work.

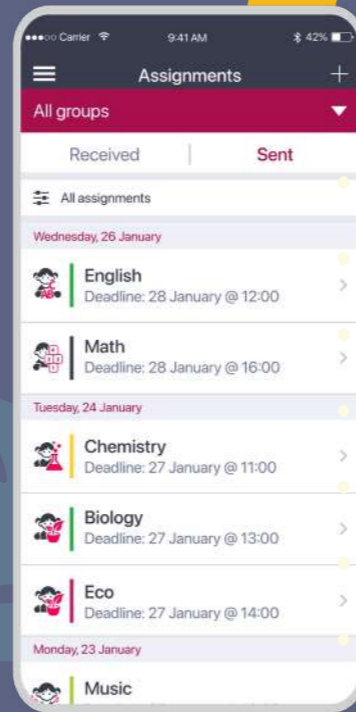

This global partnership is the latest step in a collaboration that began a year ago and which has already been successfully piloted in the Maple Bear networks from Central and Eastern Europe and the United Arab Emirates.

September 2019

1st Prize in Innovators for Children Accelerator

Innovators for Children is a program to accelerate businesses with a social impact on children's health and well-being. Following the final, Kinderpedia obtained financing of 45,000 euros, to develop the digital assessment of school progress.

What Managers and Teachers Say About Kinderpedia

With a school management platform like Kinderpedia active in our institution, we are proving that technology can enhance the learning process. We are using innovative tools to ensure that our students and their families have access to everything they need, for each child to reach their full potential."

Lauren Engler Cambridge Examinations Officer Cambridge School of Constanța

Kinderpedia's user interface and how you work with it are really quite amazing. The design is phenomenal, but also their focus on creating a connection between kids and their parents."

*Marcus Schulze
Co-founder, Brave Generation Academy*

We chose Kinderpedia as the strategic technology partner for Maple Bear in the region, after thorough consideration of the available solutions. The digital platform helps us provide a superior standard of organization, communication, and transparency across our kindergartens and schools."

Yann Bidan - CEO Maple Bear CEE

Kinderpedia helps us be more professional, more flexible and it allows us to save valuable time that we can dedicate to our students. We really recommend it!"

*Arno Krug,
CEO of Maple Bear Global Schools*

Kinderpedia is an attractive and intuitive app and helps us save a lot of time and energy."

*Ramona Costenco
Manager
Just for Kids
Kindergarten and
School*

I would definitely recommend Kinderpedia! We are able to see how the parent interaction is going, how the revenue reports are being generated, how the child's progress is happening. The platform allows us to switch across and see data at a total, holistic level."

Saurabh Narain CEO - Maple Bear Gulf Schools

I recommend Kinderpedia because it is an innovative working tool. It is a complex platform that integrates all the management and communication needs of schools of the future."

Claudia Chiru - Manager Saga Kid

I highly recommend Kinderpedia for the way it simplifies our work and enriches our interaction in the school community."

*Oana Moraru - Manager
Helikon School*

www.kinderpedia.co

What Parents Say About Kinderpedia

The collaboration with Kinderpedia is efficient and reliable. The team responds very quickly to any questions. The platform is an intuitive, easy-to-use one, so the children were able to follow and organize all the school activities relatively on their own."

Sebastian De Lazzero – Parent
Alethea School

For parents, Kinderpedia has proven to be the most effective solution.

It helped us a lot in communicating with the school and allowed us to have a much clearer picture of our children's activities and progress."

Irina Panait – Parent
Cambridge School of Constanța

"The implementation of Kinderpedia in our school and kindergarten makes our lives as parents much easier. I use the Kinderpedia app on my phone, so I receive notifications immediately and without delay. All the information is just one click away."

Alina Coppola – Parent
Wendy School Timișoara

Kinderpedia facilitates communication between family and teacher through structured information for each student. It keeps us, parents, connected and directly involved in the educational process of our children."

Madi Ghioca – Parent
Just for Kids Kindergarten and School

"The mobile app is super accessible and intuitive. I practically have the school in the palm of my hand and any relevant information is just one touch away. Kinderpedia is an open window into my children's school progress - it keeps me informed and gives me confidence that I know everything important in real-time."

Mihaela Nistor - Parent
Helikon School

With Kinderpedia we have, onetouch away, all the details of our children's schooling: teachers' messages and evaluations, observations, events, daily menus, and photo albums of classroom activities."

Andreea Munteanu - Parent
Ioanid School

"Kinderpedia is extremely useful for me as a parent because it brings together all the information I need - what and how much my child has eaten, how much he slept, and what activities he participated in throughout the day. Using the app saves me time because all the information is in one place, I have everything at my fingertips quickly and in real-time."

Simona Hatiegan - Parent
Atlanthea Kindergarten and School

Modules and Functionalities

Staff Management

Manage your team, create new roles for the school or nursery, add or remove staff accounts.

Children Groups

Children and teachers can be assigned to different groups or classes: main groups and optional groups.

Families Management

All data about children and parents is well organised and stored digitally in a safe environment.

Activities Timetable

Plan educational activities easily, set the recurrence, and assign teachers with just a few clicks.

Gradebook

Share children's performance with parents, add feedback to each grade or badge and bring parents closer to children's education.

Homework

Teachers schedule homework, set a deadline, view submitted assignments and can revise them directly from the mobile app.

Attendance and Daily Report

An interactive tool for educators to provide daily feedback to parents about children's activity in kindergarten.

Child Development

Teachers can track children's progress and register their observations in an individual progress report, tailored to their own curriculum.

Video Conferences

Teachers set up video lessons easily and students can attend the class with one single click straight from the timetable.

Document Repository

Safely store and share documents and educational materials to individuals or to selected groups of students, teachers, or parents.

Modules and Functionalities

Media

Organise media files in albums, store and share photos and videos with families quickly, in a secure environment.

Weekly Menu Planner

Share meal plans in advance with parents. Set the recurrence of weekly menus or download the menu as a pdf file.

Quick Messages

Brief updates, absences, late or early pickups, or drop-offs are communicated to teachers with just a few clicks.

Events

Easily create various events, invite students, parents and confirm their attendance, all in one place.

Live Chat

Teachers get instant notifications and communicate fast with students and parents through the real-time discussion module.

Newsletter

Create attractive e-mail templates with a drag and drop design tool, manage campaigns and measure success with built-in reports.

My Class

Parents and students can find a few details about their classmates, boosting interest and increasing community engagement.

Medical Records

Record children's medical history, including immunisation schedule, allergies, and other notable health facts.

Surveys & Polls

Set up simple or complex surveys, which give students, parents, and teachers the chance to voice their opinion.

QR Code Check-in

Parents can easily check-in children at the nursery or school, from their own smartphones by scanning the QR code.

Modules and Functionalities

Multi-Location Management

Directors coordinate, from one single account, several schools or nurseries in their network and can make informed decisions.

Billing & Payments

Kinderpedia issues invoices for tuition fees automatically and parents enjoy a quick and secure online payment solution.

Custom Reporting

Simply access and generate personalised reports on the full activity log, attendance, financial data and more.

Push Notifications

Users receive notifications straight in the mobile app depending on their own preferences and interests.

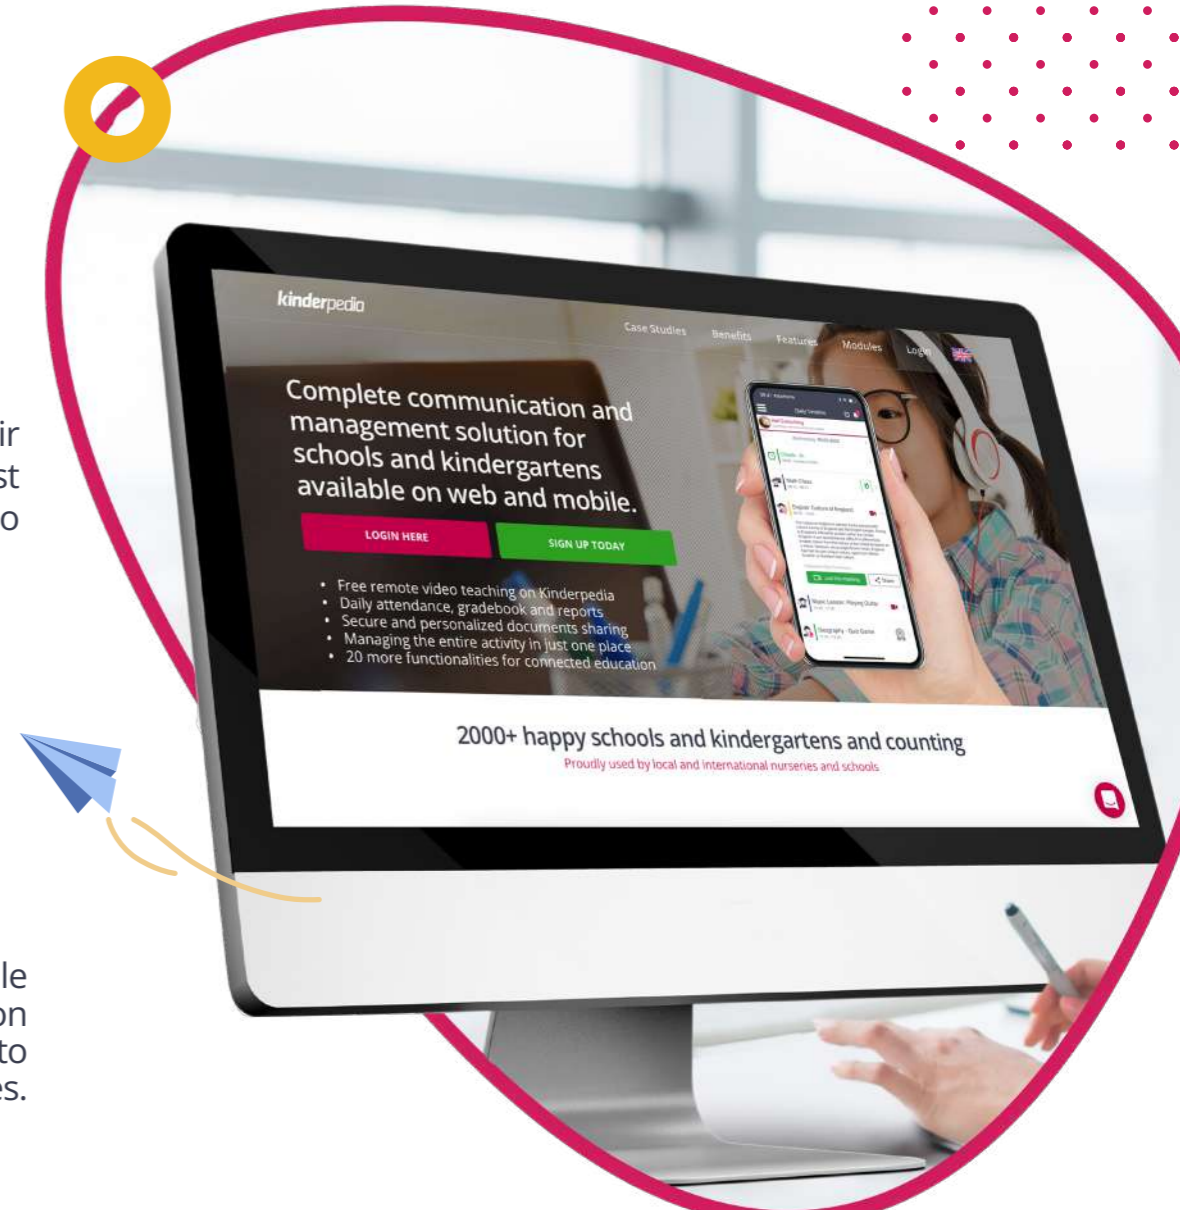

Capacity Planner

Administrators configure their institution's capacity and can adjust the resources needed according to the degree of occupancy.

Customer Support

The support team is available anytime in the mobile app and on the web and provides answers to users' requests within a few minutes.
